

Teeth

People use their teeth for chewing their food. People use their teeth for biting their food. Front teeth are for biting. Back teeth are for chewing.

The hard surface on the outside is called enamel. Fizzy drinks ruin enamel. The root connects the gum and teeth together.

Milk teeth are the first teeth. People have 24 milk teeth. The second set is called permanent teeth. People have 32 permanent teeth.

Don't eat too many sweet things and your teeth will be healthy.
