

# *Should people use real or artificial Christmas trees?*

*Christmas trees are beautiful. It is a lot of fun decorating them. But what kind of Christmas trees should you use?*

*I think people should use artificial trees. Because they last ages and ages without a doubt you will save money if you have a fake tree. If you use a real tree it will die.*

*I think I have shown that if you have a fake tree it is better for the environment.*
