

# How to make a mini volcano

If you follow the instructions right your volcano will erupt.

75ml of vinegar

a 500ml bottle

Baking soda

a tablespoon

Red food colouring

1. Pour the vinegar into the bottle.
2. Put one tablespoon of food colouring into it.
3. Put two tablespoons of baking soda into it.
4. Stand back.

If the volcano erupts you have done it right.
